AP Fiberglass Planter Options

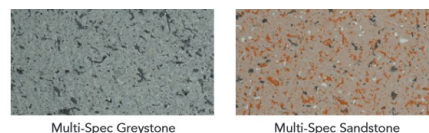

Finish Selection A: Two Stage Coating (Smooth) - A durable applied finish that can be used indoors or outdoors. Select your basecoat color from any of the below 30 standard colors and then let us know your preferred clear topcoat finish: Gloss, Satin, or Matte. Custom colors are also available at no additional charge, if selecting from a standard Pantone color chart, or a color selection from a major paint manufacturer.

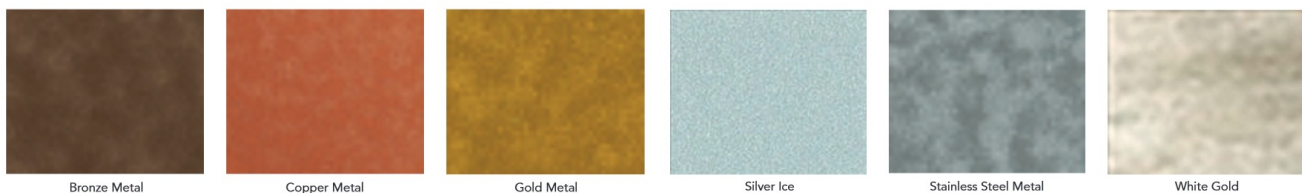

Finish Selection B: FeatherLiteCrete™ and PolyLiteCrete™ - These finishes are manufactured with light-weight stone aggregates blended with the FRP resins, fillers, and other composites. FeatherLiteCrete™ has a fine aggregate texture. PolyLiteCrete™ has a medium aggregate texture. Both finishes are ideal for indoor or outdoor use. Select from any of our standard colors in Finish Selection A, or from our standard FLC colors below. Custom colors are also available in either the FeatherLiteCrete™ or PolyLiteCrete™ finish.

Finish Selection C: Multi-Spec™ - A large aggregate composite manufactured of FRP resins, fillers, stone aggregate and other components. The product has a manufactured stone-like texture. This finish can be used indoors or outdoors. Select from the following colors.

Finish Selection D: Metals - Our metal finishes are available in numerous shades and colors. If you are selecting a "metallic" painted finish, you have the option of selecting a clear topcoat finish - Gloss, Satin, or Matte. Color chips are recommended prior to ordering any metal finish.

PLEASE NOTE:

On-screen and printed color representations may vary slightly from actual product colors.
