

# PP30RSW

## The Oasis Self-Watering Planter

### Design Highlights:

- Rotationally molded out of compound polyethylene for impact resistance, colorfastness and superior weatherability.
  - Resin is FDA approved and UV protected.
- Satin finish allows for ease of cleaning and extended "like new" appearance.
- Design provides a continuous soak utilizing capillary action through perforations that expose the soil to water in the reservoir.
- Water in the reservoir provides added weight which decreases risk of theft.
